

# Benefit Equity, Inc.

Your retirement plan administrator and consultant

e-News from BEI

Introduces a partnership with:

2010 Issue

**E-chx, Inc.**  
Payroll Solutions

## Automate your 401(k)

Reduce the workload of your payroll person.

*Let us do it for you!*

**Do you spend time going online to submit payroll deferrals or year end data?**

*BEI & E-chx will do it for you!*

After many years of working together and getting favorable reviews from clients we are pleased to announce a strategic alliance between BEI & E-chx. BEI simply downloads data from E-Chx after the close of your plan year-end. No census to fill out and no deferrals to submit.

## Why E-chx?

They understand that employer questions need to be answered in a timely manner.

This is why their Payroll Specialists handle much fewer cli-

ents per rep than their national competitors, and guarantee call-backs within 2 hours when leaving a message.

## Clear Pricing?

Other payroll providers charge their clients for each and every service they provide and pricing rarely matches initial expectations. Not with E-chx. They provide you with one price that includes all of their basic services and a streamlined invoice that simplifies your budgeting process.

## Cost Savings

In most cases, E-chx will save you money compared to your current payroll service.

## Included Services

- Full Tax Service
- Direct Deposit
- Laser Check Stuffing
- Employee Portal
- Online Access to Reports

## Optional Services

- New Hire Reporting
- SS# Verification
- Job Costing
- Time & Attendance
- Sec 125 Administration
- Workers Comp Insurance
- HR Helpdesk
- Employee Handbooks

Submit payroll as an employer or go online to check on your paystub. E-chx is easy to access from anywhere you have an Internet connection.

**E-chx, Inc.**  
Payroll Solutions

## Employee Payroll Portal

### Just like a company IntraNet

It's easy for employees to access paystubs, W-2's, and other company information online through a secure website. Employers may place up to 5 documents, 10 web-links, and utilize the bulletin board feature in the portal to keep in contact with staff.

Ask us about integrating your health insurance information and other employee benefits in a single data base in the Employee Payroll Portal portion of E-chx's payroll services.

**E-chx Payroll Solutions** is a national provider with local operations in Southern California.

*"After switching to E-chx from ADP over a year ago, I have enjoyed the user friendly website to manage our payroll. E-chx is less expensive and provides more service". I would recommend E-chx to any business owner.*

*Donna Locke—Strategic Data Systems, San Diego, CA*

*"Four years ago, we switched our payroll to E-chx. I have been extremely satisfied with all of the services they provide. They integrate with our 401(k) provider so I do not have to provide data to my Third-Party Administrator. I highly recommend them".*

*Lilin Wang—Deltamax Corp., El Segundo, CA*
